Talents -- Wiki

> Source: https://lordsmobile.fandom.com/wiki/Talent > Wiki communautaire -- a relire avant ingestion (fiabilite 3/5, verifier les valeurs en jeu).

Talents are a tree of various boosts that the player can unlock and upgrade using Talent Points. The player earns a number of Talent Points each time they level up. At Player Level 60, the player will have 278 Talent Points to spend.

Access Talents via the Leader portrait window, by tapping on the Talents button. You will need Talent Resets (1,000 Gems or 90,000 Guild Coins each) to reset the current Talent allocation. To save sets of Talents, research Innate Talent in Upgrade Military research tree of the Academy. To add 10 more talent points, research Hidden Talent in Military Command research tree.

Talents can be divided into two sections, a Military section on the left side, and an Economy section on the right.

1. Player Level

See the main page for Player EXP.
